## EDUCATION

### Bachelor of Science in Computer Science, Minor in Mathematics

May 2026

Monmouth University | West Long Branch, NJ

*Grants: Great Lawn Grant, Pell Grant, Monmouth Academic Grant*

Relevant Coursework: Computer Security, Operating Systems, Networking, Database Systems, Software Engineering Concepts

## KEY SKILLS

- **Security & Certifications:** ISC2 Certified in Cybersecurity (CC), NCL Cyber Skyline (Top 2%), Penetration Testing (ret2systems), Wireshark, Nmap, Hashcat, John the Ripper, Aircrack-ng, Volatility3, Burp Suite, GDB, Kali Linux
- **Networking & Systems:** Linux, Shell Scripting, TCP/IP Networking, Kubernetes, Docker, CI/CD Pipelines
- **Programming:** Python, C, SQL, JavaScript, Bash, x86 Assembly (*reading/analysis*)
- **Web & Infrastructure:** React, Node.js, Express, Tailwind CSS, WebRTC, Socket.IO, MongoDB, Self-hosted Kubernetes cluster, Raspberry Pi's

## PROJECTS

### Skillify – Senior Capstone Project

September 2025 - April 2026

Senior Group Project | West Long Branch, NJ

- Led 3-person team to build a community-based communication platform with 28 reusable React components and 26 pages, solving the lack of accessible peer-learning tools on campus; built with React, Vite, Tailwind CSS, Express, and MongoDB
- Implemented real-time video, audio, and messaging using WebRTC and Socket.IO, enabling low-latency peer-to-peer signaling and stable media stream handling for 50+ concurrent users
- Coordinated full-stack development, code reviews, and deployment via Vercel, reducing release time and ensuring a reproducible, scalable architecture

### Home Lab

Present

Personal Project

- Provisioned a self-hosted Kubernetes cluster on a mini-HP server with 2 Raspberry Pi worker nodes using Docker, k3s, and Linux, creating a sandbox to test production-grade deployment workflows
- Explored container orchestration, node networking, and Linux infrastructure management to deepen DevOps and systems administration skills

## PROFESSIONAL EXPERIENCE

### IT Internship

July 2025 - August 2025

City of Long Branch | City of Long Branch

- Deployed a Raspberry Pi-based digital signage system, handling OS setup, software configuration, and network integration to replace an aging display solution
- Installed and configured a security camera system and structured ethernet cabling across municipal facilities improving site coverage and network reliability
